LSA — Ranni redakcni plan — 2. 9. 2026

DATA GATE: GSC PASS | GA4 PASS | Manticore PASS

Format:

- Vrstva 1 = silne CREATE k napsani ted
- Vrstva 2 = follow-upy, updaty a inspirace bez umeleho nafukovani

Vrstva 1 — Priority

1. Apple rika vyvojarum Mac App Storu, ze uz mohou odstrihnout Intel Macy

- Action: CREATE
- Why now: cerstvy developer peg z 9to5Mac a jasny dopad na realne majitele starsich Macu.
- Titulky: Discover Apple definitivne otaci list. Aplikace pro Macy uz mohou odstrihnout Intel | Search Apple dovolil vyvojarum v Mac App Storu ukoncit podporu Intel Macu | Balanced Intel Macy dostaly dalsi stopku. Apple povolil vyvojarum ukoncit jejich podporu
- Doporucena: Balanced - spojuje emoci i jasnou zpravu a neni to jen sucha developerska veta.

Vrstva 2 — Inspirace a updaty

2. Ford vysvetlil, proc v novych elektromobilech zvolil Apple Maps misto Googlu

- Action: FOLLOW-UP
- Proc je tady: na LSA uz existuje starsi Ford/Apple Maps coverage, novy kus je silny spis jako follow-up s novym vysvetlenim.

3. John Ternus rozeslal prvni memo a zaroven se objevily detaily jeho odmeny

- Action: FOLLOW-UP
- Proc je tady: management cluster je zivy, ale zakladni John Ternus intent uz web pokryva.

4. Apple Watch Series 12: tri nove funkce pred pristi tydennim uvedenim

- Action: FOLLOW-UP
- Proc je tady: novy peg existuje, ale intent se prekryva se starsimi expectation kusy.

5. Dorazily dalsi detaily k iPhone Ultra

- Action: FOLLOW-UP
- Proc je tady: GSC cluster je silny, ale intent overlap na LSA je uz moc tesny na dalsi cisty CREATE.

6. Lake America / Apple Maps cluster neotevirat jako novy slot

- Action: UPDATE
- Proc je tady: Manticore uz ukazuje dnesni publikovany LSA kus, takze dalsi CREATE by byl duplicitni.

Datova opora

- GSC: iPhone 18 505 678 imp, iPhone 18 Pro 190 590 imp, iPhone 18 Pro Max 207 557 imp, iPhone Ultra 57 295 imp
- Z toho plyne: LSA backbone dnes stoji vic na update/follow-up Apple hardware clusterech nez na mnoha cistych overnight novinkach.

Source Coverage Audit

- WordPress / Manticore: CHECKED
- GSC: CHECKED
- GA4: CHECKED
- Google SERP Search API: UNAVAILABLE - 402 insufficient credits
- Google SERP Trends Search API: UNAVAILABLE - 402 insufficient credits
- Google Trends fallback (pytrends): PARTIAL - prvni dotaz vratil data, dalsi dotazy narazily na 429
- Google News RSS: CHECKED
- major tech media: CHECKED - 9to5Mac, 9to5Google, GSMArena, SamMobile, Android Authority, The Verge
- official newsrooms: CHECKED - Google Blog; Apple Newsroom a Samsung Newsroom: NO RELEVANT SIGNAL
- Reddit: CHECKED - r/apple; r/android a r/samsung: UNAVAILABLE - 429
- GitHub: NOT CHECKED - rano bez silneho editorialniho pegu z commit vrstvy
- APK / teardown layer: NOT CHECKED - dnes nevyhrala proti silnejsim overnight signalum
